## **DETAILED ACTION**

### ***Acknowledgement***

1. The Preliminary Amendment filed on 09/28/2006 has been received and placed of record.

### ***Drawings***

2. Figures 1-5 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

3. The drawings are objected to because there are no text label for elements (12), (14), (22), (30), (42), (44) and (46) of figure 6. Moreover, line (60) of figure 8 is not continuous. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure

Art Unit: 2611

is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Allowable Subject Matter***

4. Claims 1-9 are allowed over prior art of record.
5. The following is an examiner's statement of reasons for allowance:

References Palin (US 6,421,401), Shirakata et al (US 6,993,083), Keevill et al (US 2003/0142764) and Priotti (US 2004/0105512) are cited because they are pertinent to the method and apparatus for positioning the FFT window in COFDM receiver. However, none of the cited references teaches or suggests a method of COFDM demodulation of a signal received from a transmit channel, comprising, in combination, the arrangements of the steps of performing a fast Fourier transform of the received signal in a window corresponding to a symbol, each symbol comprising several carriers modulated in phase and/or in amplitude,

some of which are pilots, and being adjacent to a guard interval reproducing part of the symbol; providing a set of estimated values of the pulse response in module from the pilots; especially, determining coefficients, each coefficient being obtained from the product of said set and of a filtering function, wherein the filtering function comprising a central portion of constant amplitude and of duration equal to the duration of the guard interval, surrounded with non-zero decreasing sides, for a determined relative position of the filtering function with respect to said set; determining the maximum coefficient and the corresponding relative position; and positioning said window according to said relative position corresponding to the maximum coefficient as recited in claim 1 and the corresponding elements in the apparatus claim 9 and further limitations of the dependent claims 2-8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

6. This application is in condition for allowance except for the above formal matters.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
